AGAINST AUKUS

PEACE WALK AGAINST AUKUS

Concerned individuals and families are coming together with grassroots organisations Friends of the Earth and Beyond Uranium Canberra to raise awareness against the dangers of uranium mining and AUKUS nuclear submarines.

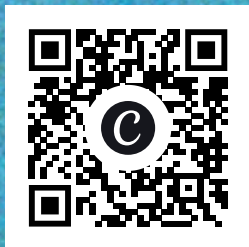

We reject the blatant escalation towards war and the unjust spending of over \$350 billion on a US-led military project during a cost-of-living crisis. That taxpayer money could be spent funding local hospitals, schools, NDIS, environmental conservation and public housing, to name a few. We stand with Aboriginal communities resisting uranium mining, nuclear waste dumping and the escalation of military operations across sacred and sovereign lands, skies and waters.

What to expect from the Peace Walk: shared meals, welcoming people, beautiful places, campfire conversations, music & art, and, of course, walking. Support vehicles will carry what we need for sleeping, cooking and keeping healthy. You can walk as much or as little as you like. We'll travel more than 400km from August 19th to September 23rd.

Join us as we walk against AUKUS, whether its for a day, a week or the whole month! Contact us by email, signal or instagram.
